Founder's Vision

E V Abdul Rahman
Founder & Managing Director

At Edinwood International School, we have turned this dream into a deliberate mission - to build 100 campuses across India, each one embodying excellence with equity. From day one, our philosophy has been clear: education must develop not just the mind but the body; not just knowledge but character. It is about shaping global citizens who stand firm in their values, who lead with integrity, who nurture their health as much as their mind, and who contribute meaningfully to their communities.

I invite you - families and partners - to join us in this journey of lasting social impact and sustainable growth.

Mentor & Advisor's Note

Dr. Shakila T Shamsu
Mentor & Academic Advisor

With over four decades in educational policy and reform, including having served as OSD (NEP 2020) in India's Ministry of Education, I have seen first-hand how promising, education systems often miss the real shift: from rote learning to truly learner-centred, from knowledge acquisition to purposeful action. At Edinwood, I am proud to lend my experience to a model that truly integrates value education, experiential learning, culture, discipline and global readiness. In the world ahead, our graduates must not simply succeed - they must lead with responsibility, empathy and vision.

By combining modern pedagogy with deep moral grounding, Edinwood is shaping students who are ready not just for a career - but for a meaningful life.

Principal's Message

Abdul Rassack P M
Principal

In a world that is changing faster than ever, our students must be adaptable thinkers, courageous creators, precise communicators and above all, value-driven citizens. Here, at Edinwood, 'Play, Grow, Lead' is more than a motto - it is a promise. We nurture academic excellence alongside creativity, sportsmanship, emotional resilience and moral strength.

Our sports-integrated academic curriculum ensures that children are not only intellectually prepared but physically robust and emotionally grounded. As we walk this journey together - with families, teachers and students - I invite you to imagine how your child will thrive here: confident, compassionate, skilled and ready to lead.
